

2023

IN REVIEW

»» FROM THE FOUNDER ««

Dear Friends of MKF,

Hope you have had a great start to your 2024! We are overwhelmed with gratitude for the incredible achievements we have accomplished together in service to underserved communities in Nigeria and the U.S. A heartfelt thank you for your invaluable contributions to our initiatives throughout 2023. Your support played a crucial role in the success of our endeavors, and we are excited to share some of the highlights from this exceptional year.

Special appreciation goes to the Mercy Michael Foundation and the Health Emergency Initiative, nonprofit organizations that have been instrumental in supporting our international operations. In reading this newsletter, we hope you sense the profound impact we've made together in reaching and saving lives. We look forward to continuing this meaningful journey together.

Sincerely,

Mobola Kukoyi MD, MPH

CPR & ACCIDENT RESUSCITATION EDUCATION (C.A.R.E)

MAY 2023 - DATE

GOAL: to improve knowledge of bystander CPR and basic first aid

»»» OUR EFFORTS

This initiative aims to equip community members (bystanders) with life-saving skills in emergency situations. Sessions covered essential aspects of cardiopulmonary resuscitation (CPR including chest compressions and rescue breathing techniques). The training successfully reached a significant number of participants, empowering them with the knowledge and confidence to respond effectively to cardiac emergencies. This initiative aligns with our commitment to community health and safety, fostering resilience in underserved areas. The project is ongoing.

TRAUMA INTERVENTION

2023

GOAL: To improve survival rates of road traffic accident victims

>>> OUR EFFORTS

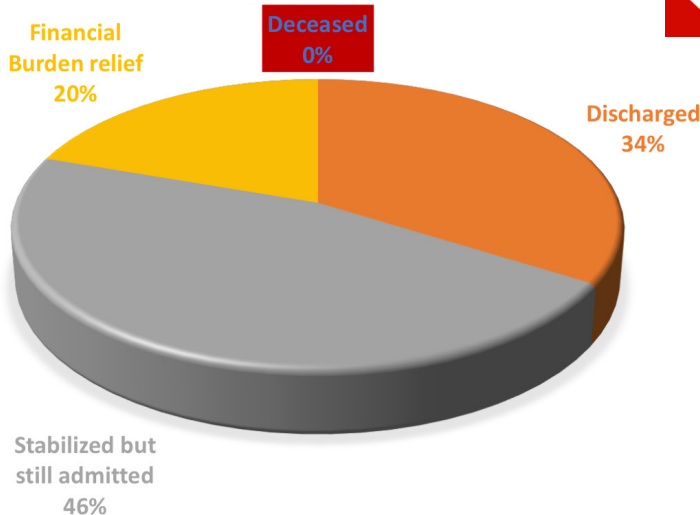

This initiative focused on funding the critical first 24 hours of trauma care in road accident emergencies. Our efforts aimed to ensure immediate and effective medical response to road accident victims during the crucial initial period following an incident. This played a pivotal role in improving survival rates and minimizing the long-term impact of road accidents.

NOTES
Illustrations of survival rates of all beneficiaries. Report shows 100% survival rate recorded for RTA victims and 0% deaths recorded after intervention.

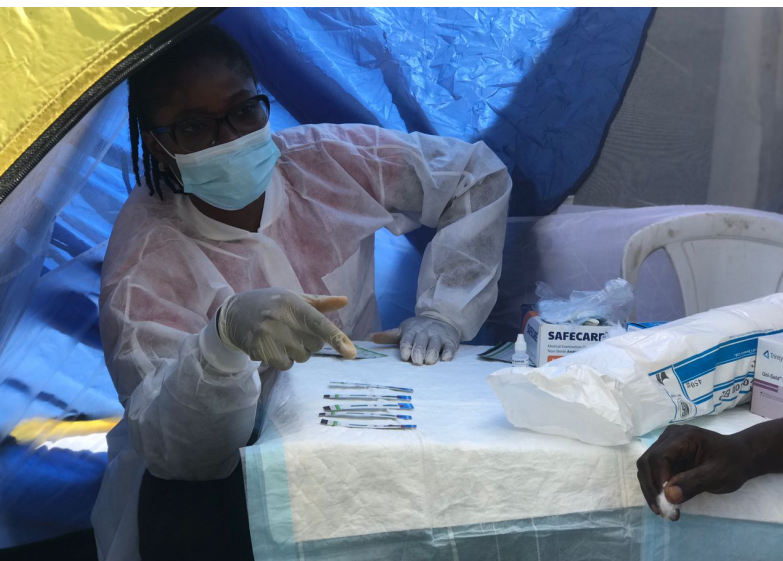

WORLD AIDS DAY

DECEMBER 1, 2023

GOAL: to diagnose new cases of HIV and improve access to care for patients with HIV/AIDS

»»» OUR EFFORTS

World AIDS Day occurred at Madaki Palace, Karu LGA, Nasarawa State. Testing activities included HIV testing, blood pressure and glucose level checks, condom distribution, counseling, and the provision of pre-exposure prophylaxis. All positive individuals were linked to health services for continuity of care.

FEED THE ELDERLY AND WIDOWS

DECEMBER 20, 2023

GOAL: to improve access to care for patients with HIV/AIDS

OUR EFFORTS

Our team undertook a mission to serve 4 communities in need during the festive season to help alleviate economic challenges. The event included distribution of food items and clothing, medical care, counseling, glucose level checks, drug dispensing and blood pressure assessments. This year's activity was a resounding success, creating positive and memorable experiences for all involved.
